The Dollar Bay-Tamarack City Area Schools reserves the right to reject any or all proposals. We will select the winning proposal based on the quality of the proposal, the vendor's reputation, and the price. The district will award the contracts where in the judgment of the district, such award is in the best interest of the district.

Some of the district USF RFPs do not contain detailed specifications for the hardware needed to accomplish said purpose. Rather, it contains a description of the general functional requirements of the various buildings and Internet connectivity. It is left to the respondent to evaluate the needs of the District, and propose specific solutions accordingly. Proposals will be partially judged on how well this is done. Each proposal received, whether for all or part of the envisioned system, will be evaluated on its merits.

Cost is a significant factor in any such evaluation, but it is the District's goal to develop a quality, as well as cost-effective, system.
